

document management.
Easy. Fast. Smart.

Scan-to-Cloud for Sharp® OSA®-enabled MFPs

Your Sharp® OSA®-enabled MFP is an Intelligent Digital Filing Cabinet.

docSTAR's **Eclipse** brings the power of cloud computing to your Sharp multi-function product. No hardware or software to buy or maintain. All documents are safely secured in our state of the art hosting facility. Buying Eclipse is easy, a simple monthly service that provides your team access to documents any time, anywhere.

Eclipse has been tested for use with Sharp OSA-enabled MFPs - making filing at the Sharp MFP more convenient and consistent than ever before!

Connect your MFP to the Cloud!

Cloud documents are easy, fast and smart!

Easy

Eclipse is easy to learn and use. After a few minutes of training, users will be scanning to the cloud instantly. Just select the cloud folder and scan!

Fast

Instant access from anywhere at any time. More mobility and more flexibility. If you can get to the internet you can get to your documents.

Smart

No software to buy or maintain. Eclipse is a monthly service. Buy only what you need, when you need it.

Convenient, Consistent Filing

Filing at the Sharp MFP can be as easy as selecting a file destination and assigning associated indexes.

Scan-to-Cloud: How it works...

Scan-to-Cloud for Sharp OSA-enabled MFPs

*The easy, fast, and smart path to
